CONCUR
QUICK CONNECT

Connect Concur Expense Management directly to Certinia Financials

SAP Concur simplifies travel, expense and invoice management for total visibility and greater control. Ladd Partners Concur QuickConnect allows companies to directly connect their Concur expense management system to their Certinia General Ledger. Concur QuickConnect saves time and improves accuracy during the monthly close cycle by fully automating the Expense Management to General Ledger process.

Product Features:

Automation - Automated connection between Concur Expense Management and Certinia General Ledger saves time and improves accuracy

Customization - Flexible data mapping tool supports custom mappings between Concur and Certinia data models

Accuracy - Scheduled, fully-automated execution eliminates human error, ensuring accurate data every time

Quick Setup - Installation includes default data mappings suitable for most businesses OOTB

Support - For more complex integrations support and customizations are available
